

Spelling Bee Activity

Vocabulary words from this chapter as well as previous chapter vocabulary words may be used for this activity. Note: The teacher may want to bring a timer to speed up the game - the team/group will have only so many seconds/minutes to spell the word. You set the time limit.

1. The class will be placed into teams/groups. The teams/groups may choose a team name.
2. Each team/group will be asked to stand in front of the class.
3. One person from another team/group will be asked to write the spelling on paper or board as it is being spelled.
4. The teacher will begin by giving the team/group a word in English to spell in Choctaw. If their time runs out without spelling the word, they will be given another word to spell within a shorter time limit. If the word is not spelled within the time limit, or is spelled incorrectly, that group will be knocked out of the game. The last team/group standing is the winner.
